Through an autonomous experimenting approach and use of strong materials Reflections Copenhagen pioneer the creative field to create the highest aesthetic designs, which unite exquisite materials and geometric shapes to form functional art objects. Reflections Copenhagen was founded in 2015, by Julie Hugau and Andrea Larsson.

The Reflections Copenhagen designs are balanced to challenge the traditional styles, colours and shapes of today's décor by adding new dimensions and possibilities to interior decorating. All irregularities and inconsistencies are part of the particular handcrafted character and elegance.

The initial idea to create Reflections Copenhagen came out of the mutual feeling that there was a need for something different, something to counteract the traditional and a desire to be able to create a fusion of dynamic Reflections, which appeal to unconventional ways of using the perfect combination of décor and art.

We challenge 'mass' perception and production in all our designs with a sustainable mindset, by contributing with high-quality designs, which sum up perspectives of how to provide new expressions through strength and form that lasts for generations.

All Reflections Copenhagen products have been individually hand produced with unique artisan techniques.

NEWS

This very functional and incredibly decorative collection uses an entrancing colour scheme that stands sharp against a white tablecloth. Whether you are searching for a new glass object for your home, or a special gift for a friend, you will find the perfect piece in this new collection. The designers at Reflections Copenhagen have used a unique colour blocking scheme that enables them to create unexampled and show-stopping pieces, taking their inspiration from the Memphis and Bauhaus eras.

Reflections Copenhagen is proud to introduce four new candle holders to their collection. Each one offers their own unique charm, which is strong enough to stand on their own but also entrancing when paired together. You can display them beautifully on mantle pieces, books shelves, or the top of a table. These delightful candle holders will bring a riot of colours wherever placed. Each colour scheme is carefully composed to highlight the exquisite craftsmanship and silhouettes in each holder.

The chunky and decadent napkin rings are crafted by hand and will bring an interesting and enjoyable sense to your table settings. They are fun to mix and match with other products from our line to create splashes of colours on your table.

Reflections Copenhagen have expanded their collection to include four new vibrantly coloured plates. The collection has taken its inspiration from Art Nouveau graphics and modernised them by adding a splash of the 1980's and contemporary colour schemes, as well as an obvious Scandinavian character.

The dinner plate collection will be an upgrade to your porcelain collection. Bold enough to stand alone or daring enough to be grouped together for a modern twist. One thing is for sure – these plates will spruce up any dinner table.
