UNPRETENTIOUS LUXURY LIVING

Founder and designer of **THEMIS • Z** and designer of Dior Maison, Themis Zouganeli created a brand that embodies an unpretentious luxury lifestyle.

Inspired by the sophisticated beauty and timeless appeal of Neoclassical Athens and using the finest of materials, **THEMIS • Z** aims to accommodate to a relaxed, confident and sustainable lifestyle.

Having designed custom made furniture and decorated a large number of domestic interiors as an interior designer, Themis realized that although beautiful, these homes lacked warmth. This is what she wanted to work on in her **THEMIS • Z** homeware line and soon the greek brand's creations became the embodiment of easy living in style.

After launching a cushion line made with cotton and hand-stitched patterns on pre-washed linen, Themis went on to create an aesthetically refined homeware line made up of fine porcelain dinner and coffee sets, handcrafted ceramic vases and tablecloths.

Homeware collections that can allow for the emotions to flow naturally, whilst preparing the mind and the body for the experience of taste, discovery and serenity.
