THE LOVE COLLECTION

“Love is, Actually, All around us”
- *Quote from Love Actually*

Our new SS23 collection “The love collection” is a tribute to love.

This collection is dedicated to the importance of love,
and is created to remind everyone that love is actually, all around us.

Love is not defined and love has no boundaries.

When creating this collection we looked at our surroundings,
and wanted to explore our designs through love and colours.

SS23 pictures the reflections of the sky, and appreciates both art and luxury.

Reflections Copenhagen includes another two sets of tableware to the SS23 collection. This collection adds two pastabowls and two breadplates. When creating this collection the main idea was to create an addition to the tableware seen in the AW22 collection. Therefore these creations have the same vibrant colour scheme, with inspiration from the 1980's and Art Nouveau Graphics. Reflections Copenhagen recommends mixing these new designs, with the dinner- and dessertplates from the AW22 collection.

LEA T-LIGHT

Lea heart T-light is the essence to our tribute to love. This is created in a clear crystal with hearts in different colors shades. The Lea heart t-light completes a romantic table setting, by adding both warmth and vibrant colors to your decor. This can also be the perfect gift to someone you love.

The Lea moon t-light is created in clear crystal and colourful moons. This t-light represents the feeling created when looking up on the sky at night, filled with mysterious darkness and a shining moon. The t-light will light up your evening, like the moon lights up the night sky.
